

## 3M™ Super Close Projection System SCP717

If you have a mid-sized or space-challenged classroom, conference room or boardroom that needs the latest innovations in projection technology, the 3M Super Close Projection System SCP717 delivers. One of the first high-brightness, DLP™, super close projectors to enter the market, the SCP717 features Brilliant Color™, DVI-D connectivity, an RJ-45 ethernet connection and an integrated wind tunnel design to minimize heat and fan noise. And the extreme off-axis short throw makes the SCP717 a great choice to replace traditional ceiling mount projectors because it greatly reduces light in the presenter's eyes. The fully integrated connectivity makes it the perfect tabletop media hub too!
